INDEX TO VOLUME XVIII

PAGE

Abderhalden test, ammonium salts and the; H. Douglas Singer and William B. Quantz..... 538

Abderhalden test, the autolysis of nitrogenous compounds of the blood serum in general paralysis and dementia praecox, with its bearing on the; H. Douglas Singer and W. B. Quantz..... 529

Acidosis in acute and chronic disease; Channing Frothingham, Jr..... 717

Acidosis in nephritis, phosphate retention as a factor in the production of; W. McKim Marriott and John Howland..... 708

Albumin and globulin content of human blood serum in health, syphilis, pneumonia, and certain other infections, with the bearing of globulin on the Wassermann reaction; Albert H. Rowe..... 455

Ammonium salts and the Abderhalden test; H. Douglas Singer and William B. Quantz..... 538

Anemia, pernicious, renal function in, as determined by dietary renal tests; Henry A. Christian..... 429

Asthma, bronchial, autogenous defibrinated blood in the treatment of; Morris H. Kahn and H. W. Emsheimer..... 445

Auricular premature beats, ventricular response to, and to auricular flutter; Paul D. White and Harold W. Stevens..... 713

Auricles and ventricles, a study of a case of intermittent complete dissociation of, presenting unusual features; James D. Heard and A. H. Colwell..... 758

Austin, J. Harold: Metabolism studies before and after splenectomy in a case of pernicious anemia..... 131

Banks, H. W., 3d: A study of protein in urine, and a comparison of gravimetric and nephelometric methods for their estimation..... 250

Barnes, Harry Lee: Chronic influenza in pulmonary tuberculosis..... 313

Bel, George S.: A critical consideration of systemic blastomycosis. With notes on certain special features and report of five cases..... 103

Bergeim, Olaf: A metabolism study of goiter. With the effect of thyroid and thymus treatment..... 800

Blankenhorn, M. A.: Dissociated jaundice..... 289

Blastomycosis, a critical consideration of systemic. With notes on certain special features and report of five cases; H. Windsor Wade and George S. Bel..... 103

Blood and tissues, mononuclear cells of the, experimental study of the. With special reference to the so-called transitional cell; Frank A. Evans..... 692

Blood, autogenous defibrinated, in the treatment of bronchial asthma; Morris H. Kahn and H. W. Emsheimer..... 445

Blood fat, a note on the, before and after splenectomy; Harry Dubin and Richard M. Pearce..... 426

Blood platelets in hemophilia; George R. Minot and Roger I. Lee..... 474

Blood pressure, studies in. With especial reference to diastolic and pulse pressure readings; William W. Cadbury..... 317

PAGE

Blood pressures, a study of low, not associated with trauma or hemorrhage; J. P. Simonds 848

Blood serum, the albumin and globulin content of human, in health, syphilis, pneumonia, and certain other infections, with bearing of globulin on the Wassermann reaction; Albert H. Rowe 455

Blood serum, the autolysis of nitrogenous compounds of the, in general paralysis and dementia praecox, with its bearing on the Abderhalden test; H. Douglas Singer and W. B. Quantz 529

Book Review: Modern medicine. Its theory and practice. In original contributions by American and foreign authors 136

Book Review: The physiology of the amino-acids; Frank P. Underhill 428

Burman, G. E.: The action of the so-called female remedies on the excised uterus of the guinea-pig 557

Burman, G. E.: The action of the various female remedies on the excised intestine of the rabbit 752

Cadbury, William W.: Studies in blood pressure. With especial reference to diastolic and pulse pressure readings 317

Carbon dioxid tension, a comparison in various diseases of the, in the alveolar air (Plesch method) with the amount of carbon dioxid in the venous blood (Van Slyke's method); I. Chandler Walker and Channing Frothingham, Jr 304

Cardiac impulse, experiments on the origin and conduction of the. VI. Conduction of the excitation from the sino-auricular node to the right auricle and auriculoventricular node. J. A. E. Eyster and Walter J. Meek 775

Carter, D. W., Jr.: Hematochyluria; observations on the fat content of the urine and the pathology of the condition 541

Cells, mononuclear, of the blood and tissues, experimental study of the. With special reference to the so-called transitional cell; Frank A. Evans 692

Chlorids and water, the excretion of, and the renal function in serum disease; Francis M. Rackemann, Warfield T. Longcope and John P. Peters 496

Christian, Henry A.: Renal function in pernicious anemia as determined by dietary renal test 429

Christian, Henry A.: Some studies of a diuretic (theocin) 606

Colwell, A. H.: A study of a case of intermittent complete dissociation of auricles and ventricles presenting unusual features 758

Davenport, C. B.: The hereditary factor in pellagra 4

Delzell, W. R.: The action of the so-called female remedies on the excised uterus of the guinea-pig 557

Delzell, W. R.: The action of the various female remedies on the excised intestine of the rabbit 752

Diabetes, glucose formation from protein in; N. W. Janney 584

Diabetes, the lime deficiency of; Max Kahn and Morris H. Kahn 212

Digitalis preparations, the rate of absorption of various, from the gastro-intestinal tract; Charles C. Haskell, C. S. McCants and F. P. Gardner 235

Dissociation, intermittent complete, of auricles and ventricles, a study of a case of, presenting unusual features; James D. Heard and A. H. Colwell. 758

Diuretic (theocin), some studies of a; Henry A. Christian 606

Dubin, Harry: A note on the blood fat before and after splenectomy 426

PAGE

Edema, angioneurotic, metabolism studies of; T. Grier Miller and O. H. Perry Pepper 557

Embolism, fat, studies in cerebral. With reference to the pathology of delirium and coma; Harry Gauss..... 76

Emsheimer, H. W.: Autogenous defibrinated blood in the treatment of bronchial asthma 445

Evans, Frank A.: Experimental study of the mononuclear cells of the blood and tissues. With special reference to the so-called transitional cell 692

Eyster, J. A. E.: Experiments on the origin and conduction of the cardiac impulse. VI. Conduction of the excitation from the sino-auricular node to the right auricle and auriculoventricular node..... 775

Female remedies, the action of the so-called, on the excised uterus of the guinea-pig; J. D. Pilcher, G. E. Burman and W. R. Delzell..... 557

Female remedies, the action of the various, on the excised intestine of the rabbit; W. R. Delzell, G. E. Burman and J. D. Pilcher..... 752

Fibrillation, transient auricular. An electrocardiographic study; Edward B. Krumbhaar 263

Flutter, auricular, ventricular response to auricular premature beats and to; Paul D. White and Harold W. Stevens..... 712

Frothingham, Channing, Jr.: Acidosis in acute and chronic disease..... 717

Frothingham, Channing, Jr.: A comparison, in various diseases, of the carbon dioxid tension in the alveolar air (Plesch method) with the amount of carbon dioxid in the venous blood (Van Slyke's method).. 304

Gardner, F. P.: The rate of absorption of various digitalis preparations from the gastro-intestinal tract..... 235

Garrison, P. E.: The incidence of pellagra in Spartanburg County, S. C., and the relation of the initial attack to race, sex and age..... 173

Garrison, P. E.: Introduction to the third report of the Robert M. Thompson pellagra commission of the New York Post-Graduate Medical School and Hospital..... 1

Garrison, P. E.: The relation of recurrent attacks of pellagra to race, sex and age of the patient and to treatment of the disease..... 652

Garrison, P. E.: The subsequent history of pellagrins in Spartanburg County, S. C., who survived the initial attack..... 340

Gauss, Harry: Studies in cerebral fat embolism. With reference to the pathology of delirium and coma..... 76

Gilbert, Q. O.: The toxic effects of urea on normal individuals..... 636

Globulin and albumin content of human blood serum in health, syphilis, pneumonia, and certain other infections, with the bearing of globulin on the Wassermann reaction; Albert H. Rowe..... 455

Glucose formation from protein in diabetes; N. W. Janney..... 584

Goiter, a metabolism study of. With the effect of thyroid and thymus treatment; John O. Halverson, Olaf Bergeim and Philip B. Hawk..... 800

Gordon, Alfred: Sensory disturbances of cerebral origin. Considerations of types and of diagnostic elements..... 733

Graves, S. S.: A study of protein in urine, and a comparison of gravimetric and nephelometric methods for their estimation..... 250

Haller, D. A.: The treatment of syphilis of the central nervous system. With intravenous salvarsan alone, with intravenous salvarsan and intraspinal salvarsanized serum together and with intraspinal salvarsanized serum alone..... 376

Halpern, Benjamin: Further studies in the inactivation of pepsin. The effect of various salts and alkaline substances..... 228

Halverson, John O.: A metabolism study of goiter. With the effect of thyroid and thymus treatment..... 800

Hamblet, Mary L.: Chronic influenza in pulmonary tuberculosis..... 313

Hamburger, Walter W.: Further studies in the inactivation of pepsin. The effect of various salts and alkaline substances..... 228

Haskell, Charles C.: The rate of absorption of various digitalis preparations from the gastro-intestinal tract..... 235

Hawk, Philip B.: A metabolism study of goiter. With the effect of thyroid and thymus treatment..... 800

Heard, James D.: A study of a case of intermittent complete dissociation of auricles and ventricles presenting unusual features..... 758

Heart, the relation of changes in the form of the ventricular complex of the electrocardiogram to functional changes in the; G. Canby Robinson..... 830

Hematochyluria; observations on the fat content of the urine and the pathology of the condition; D. W. Carter..... 541

Hemoglobin, influence of age and sex on. A spectrophotometric analysis of nine hundred and nineteen cases; Charles Spencer Williamson.. 505

Hemophilia, the blood platelets in; George R. Minot and Roger I. Lee.. 474

Hewlett, A. W.: The toxic effects of urea on normal individuals..... 636

Hoover, C. F.: Dissociated jaundice..... 289

Howland, John: Phosphate retention as a factor in the production of acidosis in nephritis..... 708

Influenza, chronic, in pulmonary tuberculosis; Mary L. Hamblet and Harry Lee Barnes..... 313

Intestine of the rabbit, the action of the various female remedies on the excised; W. R. Delzell, G. E. Burman and J. D. Pilcher..... 752

Janney, N. W.: Glucose formation from protein in diabetes..... 584

Jaundice, dissociated; C. F. Hoover and M. A. Blankenhorn..... 289

Kahn, Max: The lime deficiency of diabetes..... 212

Kahn, Morris H.: Autogenous defibrinated blood in the treatment of bronchial asthma..... 445

Kahn, Morris H.: The lime deficiency of diabetes..... 212

Krumbhaar, Edward B.: Transient auricular fibrillation. An electrocardiographic study..... 263
